School Accountability Report Card

Reported Using Data from the 2014-15 School Year

Published During 2015-16

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

School Description and Mission Statement (Most Recent Year)

About Sky Mountain Charter:

Sky Mountain Charter School (SMCS) opened in the fall of the 2007/2008 school year. Sky Mountain values the role of the parent in the education of their children. SMCS believes in programs that offer individual learning plans for each student, and takes pride in modeling these principles. SMCS is an independent Charter School sponsored by the Lucerne Valley School District in San Bernardino County. SMCS Educational Specialists (ESs) are California credentialed general education teachers who work closely with the families to serve the assigned students educational needs as determined by a written student agreement between the parent and the ES. The parent and ES work together toward student accomplishment and completion toward individual growth and state standards. They also work diligently to meet the major deadlines on the yearly paperwork timetable, as well as the paperwork deadlines for each student. ESs serve their share of required proctor duties each school year, and attend required professional growth trainings. Every ES must possess and maintain a valid teaching credential for every day they serve a student. Sky Mountain Charter School was granted W ASC accreditation in 2008 and the school received a six year renewal in 2012.

Mission Statement:

We believe in educating each of our students for the 21st century by providing individualized learning opportunities that incorporate parental participation, choice and involvement in curricula offered in personalized learning environments.

A. Conditions of Learning

State Priority: Basic

The SARC provides the following information relevant to the Basic State Priority (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair.

B. Pupil Outcomes

State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP], Science California Standards Tests); and
- The percentage of pupils who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study

C. Engagement

State Priority: Parental Involvement

The SARC provides the following information relevant to the Parental Involvement State Priority (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite.

Opportunities for Parental Involvement (Most Recent Year)

SMCS parents receive emails from a parent listserv that provides resources such as classes in our various geographic areas, college scholarship opportunities and deadlines, and Group Educational Activities (GEAs). On a GEA students go to local museums, zoos, aquariums...etc. Students have the opportunity to learn cooperatively in a hands-on environment and complete pre and post learning activities that coincide with the activity.

SMCS parents and ESs work together to select vendors that provide physical education classes (such as dance lessons, nutrition classes, swimming lessons... etc.). They also work together to select vendors who will provide group learning experiences such as small group tutoring or classes, music, art, and core subject classes.

Parents participate with the credentialed teacher in the development of the student's educational plan, initially and on an ongoing basis. Parents meet face to face with their Education Specialists at least once every 20 school days to review and document attendance and the student learning that occurs during that learning period.

SMCS Parent Council members meet via teleconference a minimum of twice per year. The parents are elected to the council and serve as a member for a two year term. Each member of the Parent Council is involved with decisions about the school and its policies. Parent Council members serve on a subcommittee to promote school and student needs. The role of the parent council member is to:

- Uphold the mission of the school
- Serve for a 2 year term
- Be a parent of a SMCS student
- Monitor school's performance
- Monitor own performance
- Make suggestions to improve school
- Attend 2 teleconference meetings per year and any special meetings that arise
- Serve on a subcommittee
- Be involved in the WASC accreditation process
- Do not have a personal agenda
- Be positive!

All parents with children enrolled in SMCS have the opportunity to volunteer their time to a council sub-committee.

For Special Education students, there is ongoing parental collaboration and supports provided to the parent to ensure that their students needs are met as part of the Individualized Education Program.

Professional Development (Most Recent Three Years)

New Educational Specialists (ESs) are guided through an initial training process which covers all aspects of the job including administrative reporting and procedures, educational philosophies, all assessments required of students, and how to select curriculum that fits individual needs of their students. The ESs demonstrate their knowledge and understanding of these topics by completing training tests within the required time, and by passing those tests with 100% accuracy. The new ES also attends individual one-on-one trainings with their advisor and observes veteran ESs at learning record meetings. An advisor is assigned to each Educational Specialist to interact with them as a mentor and supervisor. The advisor explains the procedures and requirements in further detail, oversees their paperwork, and ensures that they are following set policies and procedures correctly.

All ES's attend required monthly professional development meetings with other ESs in their geographical area. Each meeting has a set agenda that informs the ESs of important information, reviews procedures and policies, new and current curriculum choices, teaching strategies and techniques, high school training, and conflict resolution strategies. The agenda also allows for networking time amongst the group on a variety of topics and procedures. Additionally each ES must complete monthly professional development hours on a topic of their choice that relates to their annual goals. These are reported upon at the monthly meetings.

There are two all day professional development days that are required for the ES to attend where further trainings on various aspects of the job are presented. Throughout the year, additional trainings are provided that are specific to policies, procedures, curriculum, and high school issues which are presented over a web based media. This policy allows the school and ES's to respond to needs as they arise with appropriate trainings as needed.

Special Education teachers engage in monthly department trainings with a wide variety of topics ranging from specific types of strategies for specific disabilities to training on legal issues to ensure compliance with federal and state laws. Special Education teachers attend the all staff meetings provided twice a year as well as participate in an 8 hour training in August to ensure that they are continuing to develop as Special Education teachers.
